

From the 23rd of November 2020 on, all visitors must follow this procedure:

Before the trip

1. **Negative COVID-19 PCR test** (72 hours before landing in Spain)

Only PCR test is accepted and children under 6 years old are excluded. The results of the test must be original and in English, Spanish, French or German. It can be on paper or electronic format and it must include: Name of the traveller, Passport or national ID number (same as in the in the form that you must fill out), Date when the test was conducted, Identification and contact details of the centre that made the analysis and Negative result of the PCR test.

1. **Travel Health Form** (48 hours)

You must complete the entire Form from the website www.spth.gob.es or the app [Spain Travel Health-SpTH](#), and from 48 HOURS before the flight you can send the form to the Health Authorities. Once sent you will receive an email with a QR Code that will allow you to access the destination airport. You must have it printed or on your mobile phone.

In the airport

Once at the airport, you must show the QR Code that will be scanned at the health control. This will be done before boarding and after landing.

Sanitary controls will be performed, such as temperature check, control of documents and visual control.

Maintain physical interpersonal distance of at least 1.5m, frequent hand hygiene, and follow the respiratory hygiene/cough etiquette (covering yourself by coughing or sneezing) at the airport and while traveling.

During the trip and your stay

FLIGHT

- If you experience symptoms (fever, cough, shortness of breath) or discomfort during the trip, notify the crew as soon as possible.
- The use of a mask is mandatory in public transport.

AIRPORT

- Collaborate with the sanitary controls established at the airport.

Upon arrival at the destination, minimize interactions with people and the time spent at the airport, to reduce the risk of virus transmission

STAY

- If, during your stay in Spain you experience symptoms compatible with COVID-19 (fever, respiratory distress, cough) or other symptoms compatible with COVID-19 such as decreased smell and taste, chills, sore throat, diarrhea or vomiting, you should contact the authorities of the autonomous region in which you are located.

- The use of a mask is mandatory in Spain.
